this text covers the fundamental scientific principles of fibres that have been modified to be compatible with cementitious matrices it also provides information and a description of the properties of specific systems prepared with different types of fibres such as steel glass asbestos polypropylene natural fibres and various types of high performance polymeric fibres it includes a reference list and sets of tables describing the engineering properties of the different systems and micrographs

shotcrete materials performance and use is a comprehensive textbook covering the current state of the art shotcrete technology it provides an overview of the many and various uses of shotcrete shotcrete is well suited for construction of curvilinear structures domes shells bobsleigh luge tracks etc and overhead shotcrete applications seismic retrofit repairs ground support etc that could not be

constructed technically and or economically using conventional formed cast in place concrete construction methods it contains chapters on history shotcrete materials and mixture proportioning performance shotcrete research equipment and shotcrete application it is also comprised of shotcrete case history examples including buildings and structures infrastructure repair and rehabilitation ground support and shoring underground support in tunnels and mines swimming pools and spas and finally architectural shotcrete this text should be of interest to design engineers and architects considering the use of the technology as well as academics it serves as a useful guide to contractors using shotcrete in one or more of its many and various applications

applying any material to an existing concrete surface intrinsically entails the development of a bond considering the ever increasing importance of concrete repair and protection which imply the creation of an interface between two materials an improved knowledge of concrete surface characteristics is paramount surface engineering which has evolved from the world of metallurgy addresses all surface related considerations notably adhesion it provides a fundamental understanding of what will make the contact between two materials effective or not allowing for interactions of variable intensity it also comes with a variety of scientific tools for characterizing the quality of the substrate the properties of the new material layer and their interface in the case of concrete surface treatment this is especially important for achieving lasting results this book addresses the essentials of concrete surface engineering in view of a wide variety of concrete surface treatments from protective coatings to repairs it provides a leading edge source of information for practicing engineers architects repair specialists and researchers on the following topics surface engineering principles applied to concrete methods and techniques for assessing concrete surface characteristics fundamentals of adhesion between concrete and surface repairs treatments compatibility requirements for concrete surface repairs treatments review of surface preparation techniques available for concrete achievement and appraisal of bond between existing concrete and surface repairs treatments benoît bissonnette is professor of civil engineering at laval university in quebec city canada luc courard is professor of building materials at the university of liège in belgium andrzej garbacz is professor of building materials engineering in the department of building materials engineering at the warsaw university of technology in poland

provides a clear comprehensive introduction to the subject different problems of optimization are considered and illustrated with examples large sets of new experimental data are presented and discussed

designed for undergraduate courses in civil engineering and construction materials and for practicing professional engineers also serves as an excellent resource in upper level concrete materials courses the text provides a cohesive presentation of practical applications supported by detailed background information
